Dear Manor Royal Business

Creation of Woolborough Lane Linear Park

I am delighted to inform you that work to create the next park area in Manor Royal is about to start near you at the intersection of Woolborough Lane and Napier Way to Manor Royal road, which forms part of the Route 21 National Cycle Network.

This forms part of the vision of the Manor Royal BID to improve the entranceways (Gateways) and create new facilities and outdoor seating throughout the business district so that no one working anywhere in Manor Royal will be more than a five-minute walk away from one of these new park areas.

Work will begin on the Woolborough Lane Linear Park on **23 March 2026**.

See the site notice on the reverse of this letter for details.

As far as possible disruption will be kept to a minimum, although the footpath and cycleway will be closed for a short while during the end of the construction programme to undertake the resurfacing works.

On completion the park will provide an excellent new facility for you and your staff to enjoy consisting of new planting and public realm, new seating, bespoke public art, signage, and an outdoor table tennis table as well as the resurfaced footpaths.

Later in the year (July) we will launch a new wellbeing and walking trail connecting all the different areas, with a supporting website and maps, to help people plan their own walks or runs through the area taking in these new points of interest, including information about the art and artists who have worked on them.

Thank you for your patience while these works are going on. Do get in touch if you have any further questions.

Yours Sincerely

Steve Sawyer

PUBLIC NOTICE

IMPROVEMENT WORK TO OFF ROAD FOOTPATH & CYCLEWAY

at intersection of Woolborough Lane and Napier Way to
Manor Royal road (part of Route 21 NCN)

From: 23 March 2026 **To:** 29 May 2026

These works are to create a new park area consisting of enhanced planting and public realm, new seating, public art, signage, an outdoor table tennis table and improved footpaths.

Hours of work will be between 700am and 500pm Monday to Friday.

Towards the end of the programme the footpath and cycleway will be closed to allow for resurfacing work and a diversion will be in place.
